

# A Personalized, Gamified Platform for Education

## Classera LMS

Classera is an AI-powered learning platform designed to personalize and enrich the educational experience for every learner. It features adaptive learning paths, auto-graded assessments, real-time performance analytics, gamification, virtual classrooms, and smart content recommendations. These tools help teachers save time and boost engagement while guiding students based on their performance and learning style.

Integrated with Intel® Core™ Ultra processors and NPU-powered AI PCs, Classera delivers faster, more responsive interactions and enables advanced offline learning features. This ensures equitable access, even in low-connectivity areas, and supports millions of learners across K–12, higher education, and training sectors worldwide.

By leveraging Intel’s latest AI PC technology, Classera ensures faster performance, improved user experience, and wider access in bandwidth-constrained regions.

This advanced platform provides each student with an experience tailored to their needs for seamless and easy education.

*AI-powered LMS designed to make your learning journey more personalized and unique.*
