

Kingdee Cosmic AI Service Cloud

Accelerating Intelligent
Business With
Low-Code, Personalized
AI Services

With the rapid growth and developments in AI technology, low-code AI platforms are becoming increasingly critical for enterprises to help maintain a competitive edge. Kingdee Cosmic AI Service Cloud is a Platform-as-a-Service (Paas) solution that provides users with low-code, personalized AI services that help realize a variety of intelligent use cases such as automated document processing, data insights and forecasting, intelligent conversation assistants, and more. The solution uses multiple AI technologies, such as speech and visual recognition and machine learning, to help enterprises improve productivity, gain deeper understanding of their business, improve customer experiences, and develop new business opportunities. With this cloud native solution which utilizes Intel® Xeon® processors and the Intel® distribution of OpenVINO™ toolkit, users can gain enhanced inference performance, reduce latency, and improve efficiency of their applications while lowering operating costs.

Key Features

Low Code AI Platform

Natural Language Processing

Intelligent Text Recognition

Flexible Deployment

Verticals:

- Retail
- Manufacturing
- Banking/FSI
- Hospitality

Use Cases:

- Interactive Media
- Asset & Operations Optimization

Country/Geo:

East Asia; South East Asia
