

Intelligence is Your Edge

Powered by Intel

n^x Network Optix

Multimodal AI for Evolving Smart Cities

Experience how Intel® Core™ Ultra processors power Network Optix's innovative multimodal AI, revolutionizing security monitoring at the edge. The latest Intel Core Ultra processor enables security video search and monitoring with GPT-like text descriptions, eliminating the need for pre-defined parameters like car color or license plates. On-device AI ensures real-time insights, enhanced privacy, and reduced cloud costs.

Intel Product and Technology

Intel® Core™ Ultra Processors

The Intel® Core™ Ultra processor scale performance and AI acceleration, powering edge computing across smart cities, factories, retail, entertainment, and healthcare for advanced AI-driven solutions.

Intel® Distribution of OpenVINO™ Toolkit

OpenVINO™ toolkit accelerates AI inference with lower latency, higher throughput, and optimized hardware use, enabling efficient deep learning in computer vision, LLMs, and generative AI.
