

Intelligence is Your Edge

Powered by Intel

Integrating AI, Automated Logic, and Visualizations for Actionable Insights

EPIC iO DeepInsights combines and enriches video, external feeds, and sensor data to provide business valuable and actionable insights. Our platform is open, flexible, and easily extended to a wide range of specialized use cases across many vertical markets. It is a cloud-based open platform, which means it readily incorporates existing investments, additional 3rd-party AI computer vision models and IoT sensors.
